

TABLE OF CONTENTS

Part I Setting the scene

Chapter 1	Introduction	3
1	The interplay between copyright law and libraries in the digital networked environment	3
2	Central question, scope and terminology	9
3	Outline and approach	13
3.1	Interdisciplinary research: connecting LIS and law	15
3.2	Doctrinal legal research: patterns in copyright law	16
3.3	Comparative and normative legal analysis: principles for a future library privilege	18

Part II The library concept

Chapter 2	Libraries: origins, development, mission and functions	25
1	Introduction	25
2	Origins and historical development of societal position	28
2.1	Origins: ancient libraries	29
2.2	Monastery and university libraries in the Middle Ages (fifth – fifteenth century)	31
2.3	Renaissance libraries and the printing press (fifteenth – seventeenth century)	36
2.4	The Enlightenment and the rise of modern libraries (seventeenth – eighteenth century and further)	41
2.4.1	Libraries during the Enlightenment	41
2.4.2	Traces of the Enlightenment in the establishment of modern libraries	45
2.5	Automated libraries and digital libraries in the Information Age (twentieth – twenty-first century)	47
2.5.1	Library automation and early signs of online libraries	47
2.5.2	Digital libraries: from theoretical concept to reality	49
3	The position of libraries in the current digital networked environment	54
3.1	The evolving concept of ‘libraries’ in LIS	55
3.2	Main types of libraries and their missions: united in diversity	61
3.2.1	University libraries	62
3.2.2	National libraries	63
3.2.3	Public libraries	66

TABLE OF CONTENTS

3.2.4	Conclusion	69
3.3	Public task and functions operationalizing the institutional mission and task	70
3.3.1	Public task	70
3.3.2	Organizing functions	84
3.3.3	Operationalizing functions	89
3.4	Overview: normative values of library functioning	101
4	The library's future role in the digital era	106
4.1	Ongoing developments in the digital networked environment	107
4.2	Challenges and needs with regard to accessibility in (the information) society	111
4.2.1	Practical and physical pressures	111
4.2.2	Digital constraints	113
4.3	Outlook: why libraries will remain important in the future	118
5	Conclusion and assessment framework	120

Part III Copyright law: libraries' institutional organization, purpose and functions through a copyright lens

Chapter 3	Prelude: the interplay between copyright law and libraries	129
1	Introduction	129
2	Theories on copyright's rationales: social, cultural and freedom of expression arguments	131
3	Meeting copyright's objectives by granting exclusive rights	133
4	Copyright is not unlimited I: inherent limits	135
5	Copyright is not unlimited II: statutory exceptions	136
6	Exceptions are not unconditional either	139
7	Library exceptions: mandatory and contractually overridable?	140
8	Conclusion	142
Chapter 4	US copyright law and libraries	145
1	Introduction	145
2	Historical rationales behind the library privilege's development in the US	146
2.1	The proper treatment of lending	146
2.2	Progressing reprography practices	148
2.3	From photocopying to computer uses	155
3	Current relevant provisions in the US Copyright Act	156
4	Assessment: libraries' institutional organization, purpose and functions from a US copyright perspective	158

4.1	The characterization of ‘libraries’ under US copyright law: institutional organization	158
4.1.1	Physical location versus access beyond fixed location	159
4.1.2	Local versus remote collection	165
4.1.3	Library staff and local users versus interactivity and remote users	170
4.1.4	Conclusion	171
4.2	US copyright law and the purpose of ‘libraries’	171
4.2.1	“Ground rules”	172
4.2.2	Service in support of users	173
4.2.3	Public service mission and values	177
4.2.4	Conclusion	180
4.3	How US copyright law facilitates the ‘library’s’ operationalizing functions	181
4.3.1	“Ground rules”	181
4.3.2	Prelude: relationship between Section 107 and Section 108	182
4.3.3	Preservation	185
4.3.4	Access	193
4.3.5	Conclusion	218
5	Conclusion	218
Chapter 5	EU copyright law and libraries	221
1	Introduction	221
2	Historical rationales behind the library privilege’s development in the EU	223
2.1	Reprography and lending: the need for Community action	223
2.2	Concrete action to regulate lending	226
2.3	Towards a digital networked environment	227
3	Current relevant provisions in the EU copyright acquis	229
4	Assessment: libraries’ institutional organization, purpose and functions from an EU copyright perspective	231
4.1	The characterization of ‘libraries’ under EU copyright law: institutional organization	231
4.1.1	Physical location versus access beyond fixed location	232
4.1.2	Local versus remote collection	240
4.1.3	Library staff and local users versus interactivity and remote users	243
4.1.4	Conclusion	244
4.2	EU copyright law and the purpose of ‘libraries’	245

TABLE OF CONTENTS

4.2.1	Service in support of users	245
4.2.2	Public service mission and values	249
4.2.3	Conclusion	255
4.3	How EU copyright law facilitates the ‘library’s’ operationalizing functions	255
4.3.1	Rules of interpretation and effectiveness of exceptions	256
4.3.2	Prelude: the aftermath of the Copyright Directive	257
4.3.3	Preservation	259
4.3.4	Access	268
4.3.5	Conclusion	300
5	Conclusion	300
Chapter 6	German copyright law and libraries	303
1	Introduction	303
2	Historical rationales behind the library privilege’s development in Germany	305
2.1	Increasing lending numbers	305
2.2	Advances in reprography and continued attention for lending	307
2.3	Copyright amendments in the information society	309
3	Current relevant provisions in the German Copyright Act	311
4	Assessment: libraries’ institutional organization, purpose and functions from a German copyright perspective	313
4.1	The characterization of ‘libraries’ under German copyright law: institutional organization	313
4.1.1	Physical location versus access beyond fixed location	313
4.1.2	Local versus remote collection	325
4.1.3	Library staff and local users versus interactivity and remote users	328
4.1.4	Conclusion	330
4.2	German copyright law and the purpose of ‘libraries’	332
4.2.1	Service in support of users	332
4.2.2	Public service mission and values	336
4.2.3	Conclusion	341
4.3	How German copyright law facilitates the ‘library’s’ operationalizing functions	342
4.3.1	Interpretation of exceptions and beneficiaries	344
4.3.2	Preservation	345
4.3.3	Access	352
4.3.4	Conclusion	380
5	Conclusion	381

Chapter 7	Dutch copyright law and libraries	383
1	Introduction	383
2	Historical rationales behind the library privilege's development in the Netherlands	384
2.1	Lending: from exhaustion via administrative arrangements to a legal basis	384
2.2	Regulating reprography	386
2.3	Implementing the Rental and Lending Rights Directive and the Copyright Directive	387
3	Current relevant provisions in the Dutch Copyright Act	389
4	Assessment: libraries' institutional organization, purpose and functions from a Dutch copyright perspective	390
4.1	The characterization of 'libraries' under Dutch copyright law: institutional organization	391
4.1.1	Physical location versus access beyond fixed location	391
4.1.2	Local versus remote collection	400
4.1.3	Library staff and local users versus interactivity and remote users	404
4.1.4	Conclusion	406
4.2	Dutch copyright law and the purpose of 'libraries'	407
4.2.1	Service in support of users	407
4.2.2	Public service mission and values	410
4.2.3	Conclusion	418
4.3	How Dutch copyright law facilitates the 'library's' operationalizing functions	419
4.3.1	Interpretation of exceptions and beneficiaries	421
4.3.2	Preservation	423
4.3.3	Access	429
4.3.4	Conclusion	449
5	Conclusion	450

Part IV Comparison and conclusions

Chapter 8	Normative assessment	457
1	Introduction	457
2	The library privilege in force: from descriptive patterns to criticisms and solutions	460
2.1	Introduction	460
2.2	Libraries' institutional organization under copyright law: comparison, criticisms and solutions	462

TABLE OF CONTENTS

2.2.1	Comparative state of affairs and criticisms	463
2.2.2	Exploration: proposals for solutions	475
2.3	Libraries' purpose under copyright law: comparison, criticisms and solutions	481
2.3.1	Comparative state of affairs and criticisms	481
2.3.2	Exploration: proposals for solutions	490
2.4	Libraries' functions under copyright law: comparison, criticisms and solutions	493
2.4.1	Preservation	495
2.4.2	Access	508
3	Conclusion: towards a future library privilege in copyright law	544
3.1	Institutional organization	545
3.2	Purpose	546
3.3	Functions	547
Chapter 9	Conclusions and recommendations	549
1	Introduction: foundations and substance of a future library privilege	549
2	Implications of the library's historically developed societal role, its fundamental rights connotations and continued relevance	552
2.1	What we can learn from the library's historical development	553
2.2	The continued relevance of the library's main characteristics: institutional organization, purpose, functions	554
2.2.1	Institutional organization	555
2.2.2	Purpose	556
2.2.3	Functions	558
2.3	Conclusion	561
2.3.1	A. Foundational principles	561
2.3.2	B. Substantive principles	562
3	Implications of the historical and current position of 'libraries' under copyright law for their future regulation	564
3.1	What we can learn from copyright law's historical rationales in theory and practice	641
3.1.1	Historical rationales in theory	565
3.1.2	Historical rationales in practice	568
3.2	Space under copyright law for the library's evolving main characteristics	571
3.2.1	Institutional organization	572
3.2.2	Purpose	576
3.2.3	Functions	578
3.3	Conclusion	585

TABLE OF CONTENTS

3.3.1	A. Foundational principles	586
3.3.2	B. Substantive principles	587
4	Outlook: 'libratory' copyright law	593
Bibliography		597
Annex – Selection of national copyright provisions		657
