TEXT OF THE PRINCIPLES	1
I Definitions	1
II Enterprises' GHG Reduction Obligations	3
III Consideration of Suppliers' GHG Emissions	11
IV Advertising Products and Enticing Consumers	12
V Obligations of Buyers of Fossil Fuels	12
VI Supermarket Chains, Major Internet Sellers and Other Major Retailers	13
VII Outsourcing	13
VIII Effective Climate Governance	13
IX Enterprise's Obligations of Disclosure	14
X Environmental Impact Assessment of New Facilities	16
XI Obligations of Investors and Financiers	16
XII Obligations of Insurers and Reinsurers	18
XIII Obligations of Accountants	18
XIV Obligations of Credit Rating Agents	18
XV Attorneys	19
XVI Exception for Hard Cases	19
GENERAL COMMENTARY	21
1 Members of the group	21
2 Our website	21
3 Concerned, and unprepared: the known knowns	22
4 Concerned and allegedly prepared	24
5 Ignorance	26
6 From global warming to climate crisis	26
7 Why an update?	28

TABLE OF CONTENTS

7.1	A myriad of reasons	28
7.2	Global emissions still rising	29
7.3	Bleak forecasts	29
7.4	New scientific insights by the IPCC and others	31
7.5	Devastating natural catastrophes: the new “normal”	35
7.6	Developments in the political arena	36
7.7	The sobering conclusions of a ground-breaking report	37
7.8	Worse than expected	41
7.9	Conclusion	41
8	The purpose of the Principles	42
9	Promising initiatives	42
10	Why an emphasis on the corporate sector?	43
11	Key features: general observations	46
12	Key features: more emphasis on activities, products and services	47
13	Key features: obligations of players in a position to bring about tangible change	49
14	Unwilling to take action: the costs are too high?	50
15	Vague Principles, laudable Declarations, but concretisation important	53
16	Principles as concrete as possible	56
17	A special regime for fossil fuel enterprises?	59
18	Attribution of GHG emissions	60
18.1	Introduction	60
18.2	General discussion	61
18.3	Attribution of emissions from oil	63
18.4	Attribution of emissions from gas exploration, coal mines and fracking	63
18.5	Attribution of emissions from electricity production	64
18.6	Attribution of emissions from leakages	66
18.7	Exploration of new oil and gas fields	66

18.8	Deforestation	67
19	A circular economy?	68
20	The 2050 paradigm: aligning with the Paris Agreement: hoping for a bright future	68
21	Let us focus on what needs to be done in the ten years to come	69
22	Legal basis	70
22.1	Introduction	70
22.2	Polluter pays principle	72
22.3	Human Rights law	72
22.4	Minimum obligations	84
22.5	The Paris Agreement	87
22.6	The Paris Agreement as bare minimum	88
22.7	Tort law	91
22.8	Precautionary principle	95
22.9	Soft law as a legal basis	99
22.10	Pledges, declarations and the like as a basis for obligations	102
22.11	Obligations towards future generations	105
22.12	The state of the law	106
23	Not one size fits all	108
24	Not all or nothing	109
25	No bullet proof interpretation	109
26	Bold interpretation in case of doubt?	110
27	Gap filling obligations	110
28	The law as a living instrument	114
29	Role of courts	120
30	Climate change and the other sustainability goals	125

TABLE OF CONTENTS

31	The temporal effect of the update	127
31.1	Historical emissions before the EP	127
31.2	From the EP to this update	130
	COMMENTARY TO THE PRINCIPLES	131
	Use of the previous version of the commentary	131
	Principle 1	131
	<i>Definitions</i>	131
	Enterprises' GHG emissions reduction obligations	148
	Principle 2	148
	<i>General observations</i>	148
	<i>Betting on negative emissions?</i>	149
	<i>Alternative solutions?</i>	149
	<i>All in all, the approach of Principle 2 preferable</i>	150
	<i>Not all GHG emissions are unlawful</i>	150
	<i>Emission trading schemes</i>	151
	Principle 2.1	151
	Principle 2.1.1	153
	<i>A reality check</i>	154
	<i>Dangerous GHGs</i>	156
	<i>Increase and decrease of production and mergers and acquisitions: general observations</i>	156
	<i>Increase of production</i>	156
	<i>Decrease of production</i>	158
	<i>Mergers and acquisitions</i>	159
	<i>International transport</i>	160
	<i>Calculation of reductions of enterprises in BPQ countries</i>	162
	Principle 2.1.2	162
	Principle 2.1.3	162
	Principle 2.1.4	163

Principle 2.2.1	164
<i>Why five year periods?</i>	165
<i>The glidepath</i>	165
<i>The reduction percentage</i>	167
<i>Calculation of the NDCs of BPQ countries</i>	167
<i>A reality check</i>	168
Principle 2.2.2	170
Principles 3 and 4: flexibility to determine the reduction obligations different from Principle 2.1.1	171
Principle 3.1	172
<i>Over-use of Principle 3.1 by countries</i>	174
<i>A non-exhaustive list</i>	174
Principle 3.3.1	174
<i>No carte blanche</i>	174
<i>Examples</i>	175
<i>A matrix of the respective factors</i>	175
<i>Border line cases difficult</i>	176
Principle 3.3.2	176
Principle 3.3.3	176
Principle 4.1	177
Principle 4.2.1	179
Principles 4.2.2 and 4.2.3	179
Principle 4.3.1	179
Principles 4.3.2 and 4.3.3	180
Principle 5: General observations	180

TABLE OF CONTENTS

Principle 5.1	181
Principle 5.2	182
Principle 6	182
Principles 7 and 8	183
Principle 7	183
Principle 7.1	184
Principle 7.2	185
Principle 8	186
General commentary on Principles 9 and 10	187
Principle 9.1	189
Principle 9.2	190
Principle 9.3	191
Principles 9.4 to 9.6	192
Principle 9.4	192
Principle 9.5	193
Principle 9.6	193
Principle 10	194
Principle 10.1	195
Principle 10.2	195
Principle 10.3	196

TABLE OF CONTENTS

Principle 10.4	196
Principle 11	197
Principle 12	198
Principle 13.1	199
Principles 13.2 to 13.5	201
Principle 14	201
Principles 14.1(a), (b), (c)	202
Principle 14.1(d)	202
Principle 14.2	202
Principle 15	202
Principle 16	205
Principle 17	206
Consideration of suppliers' GHG emissions	207
Principle 18	207
Principle 18.1	209
Principle 18.2	210
Principle 18.3	211
Principles 18.4 and 18.5	211
Principle 18.6	212

TABLE OF CONTENTS

Advertising products and enticing consumers	212
Principles 19 and 20	212
Principle 19.1	213
Principle 19.2	213
Principle 20	214
Obligations of buyers of fossil fuels	214
Principle 21	214
Principle 21.1	215
Principle 21.2	216
Principle 21.3	216
Supermarket chains, major internet sellers and other major retailers	217
Principle 22	217
Principle 22.1	217
Principle 22.2	218
Principle 23: Outsourcing	219
Effective Climate Governance	220
Principles 24-26: general commentary	220
<i>Legal basis</i>	221
<i>Shall or should?</i>	228
<i>How to assess the legal obligations?</i>	228
Principle 24	229

TABLE OF CONTENTS

Principle 25	232
<i>Legal basis</i>	235
Principle 26	237
Enterprise’s Obligations of disclosure	238
Principles 27 to 34: Disclosure	238
<i>Legal basis</i>	238
<i>The importance of disclosure</i>	239
Principle 27	240
Principle 28	243
Principle 29	243
Principle 30	246
Principle 31.1	248
Principle 31.2	248
Principle 32	249
Principle 33	250
Principle 34	251
Environmental impact assessments of new facilities	251
Principle 35	251
Principles 36 to 44: Obligations of financiers and investors: General commentary	256
<i>Ascertain and take into account</i>	257
Obligations of financiers	257

TABLE OF CONTENTS

Principle 36	257
<i>The meaning of financier</i>	258
<i>The meaning of project</i>	258
<i>Legal basis</i>	258
<i>Differentiating between projects?</i>	260
Principles 37 to 44: Obligations of investors: general commentary	262
<i>Introduction</i>	262
<i>Legal basis</i>	263
Principle 37	267
Principle 37.1	268
Principle 37.2	269
Principle 37.3	270
Principle 38	270
Principle 39	272
Principle 40	273
Principle 41.1	273
Principle 41.2	274
Principle 42	275
Principles 43.1 and 43.2	275
Principles 43.3 and 43.4	276
Principle 44	278
Principles 45 to 48: Obligations of insurers, re-insurers, accountants, credit rating agents and attorneys: General commentary	278

TABLE OF CONTENTS

Principle 45: Insurers and re-insurers	279
<i>Introduction</i>	279
<i>Liability insurance</i>	280
<i>Other insurance coverage</i>	283
Principle 45.2	284
Principles 46 to 48: Obligations of accountants, credit rating agencies and attorneys: General commentary	284
Principle 46: Accountants	285
Principle 47: Credit rating agencies	286
Principle 48: Attorneys	287
Principle 49: Exceptions for hard cases	289
Finally	290
Bibliography	295
